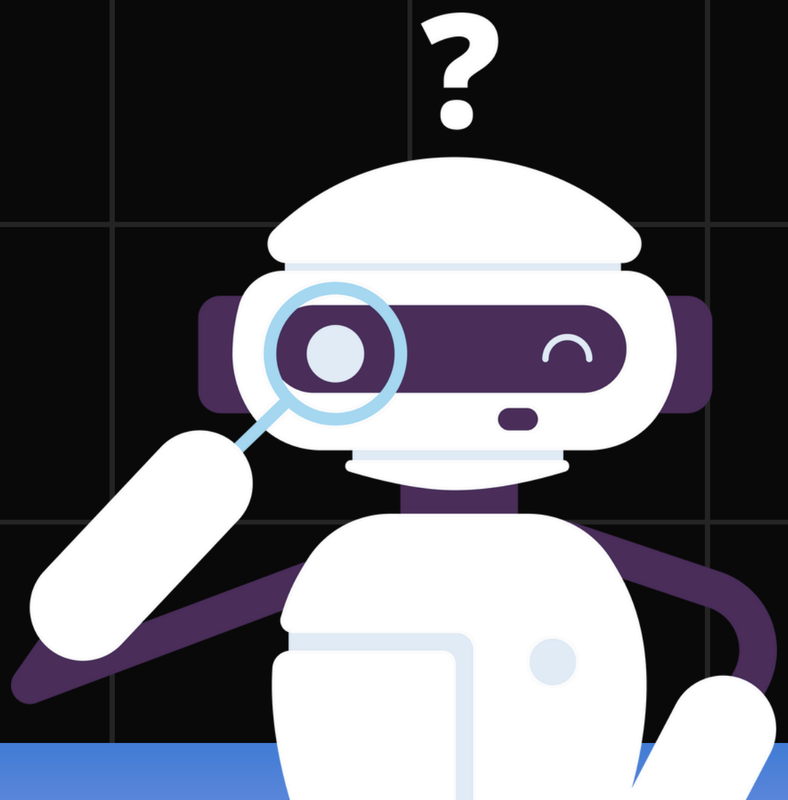
VISION & MISSION



Our Vission

At AIPROBOT, our vision is to empower every trader, regardless of experience, with transparent, reliable, and innovative AI driven solutions. We aim to make the complex world of financial markets accessible to all, ensuring that our users can navigate trading with confidence and ease with our AI trade bot.

Our Mission

Our platform connects you with skilled cryptocurrency traders. You can browse through a list of top-performing traders, analyze their strategies, and choose the one that suits your investment goals. Once you've selected a trader, our system automatically replicates their trades in your account. You can sit back, relax, and watch your portfolio grow.

Message from CEO

The visionary of our AIPROBOT CEO, brings over 18 years of diverse experience in the financial and trading sectors. A holder of a Master’s Degree in both Economy and Law, our CEO is a dynamic and results-oriented leader known for driving business growth and success. With extensive background in the banking industry, our CEO held management positions for five years, honing expertise in financial management and leadership.

With over a decade of experience in the Forex market, our CEO has held prominent roles as Head of Dealing and Head Market Analyst, as well as being a seasoned trader herself. The deep understanding of market dynamics and sharp analytical skills have cemented our CEOs reputation as a leader. At AIPROBOT, our director leverages his strategic vision and trading expertise to guide the company’s innovative AI Trading Bot platform to new heights.

SELL

BRIEF ON TRADING BOT

BUY

A trading bot is a software program that uses algorithms and predefined rules to automate trading activities in financial markets. These bots can be used for trading stocks, cryptocurrencies, forex, or other financial instruments. Here's how they typically work:

- Automation
- Predefined Rules
- 24/7 Operation
- Efficiency

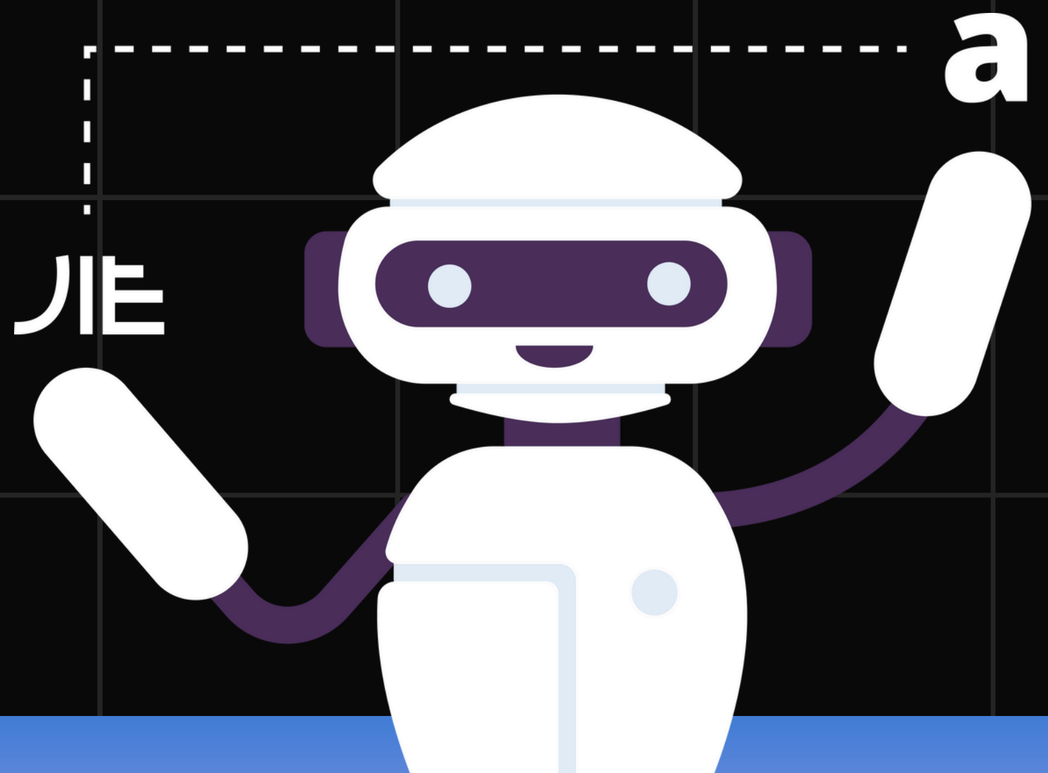
Ai probot

Algorithmic Trading

An algorithm is a set of instructions to be followed in a step-by-step manner by a computer.

Algorithmic trading is the use of algorithms to automatically open and close trades according to predefined parameters.

For instance, an algorithm can be programmed to observe the overbought and oversold conditions of a given market and to automatically open and close positions when certain criteria are met.



Ai probot

BENEFITS OF TRADING BOT

1. AUTOMATION OF TRADES

Trading bots can execute trades automatically, based on predefined strategies and market conditions. This reduces the need for constant manual monitoring and trading.

2. EMOTION-FREE TRADING

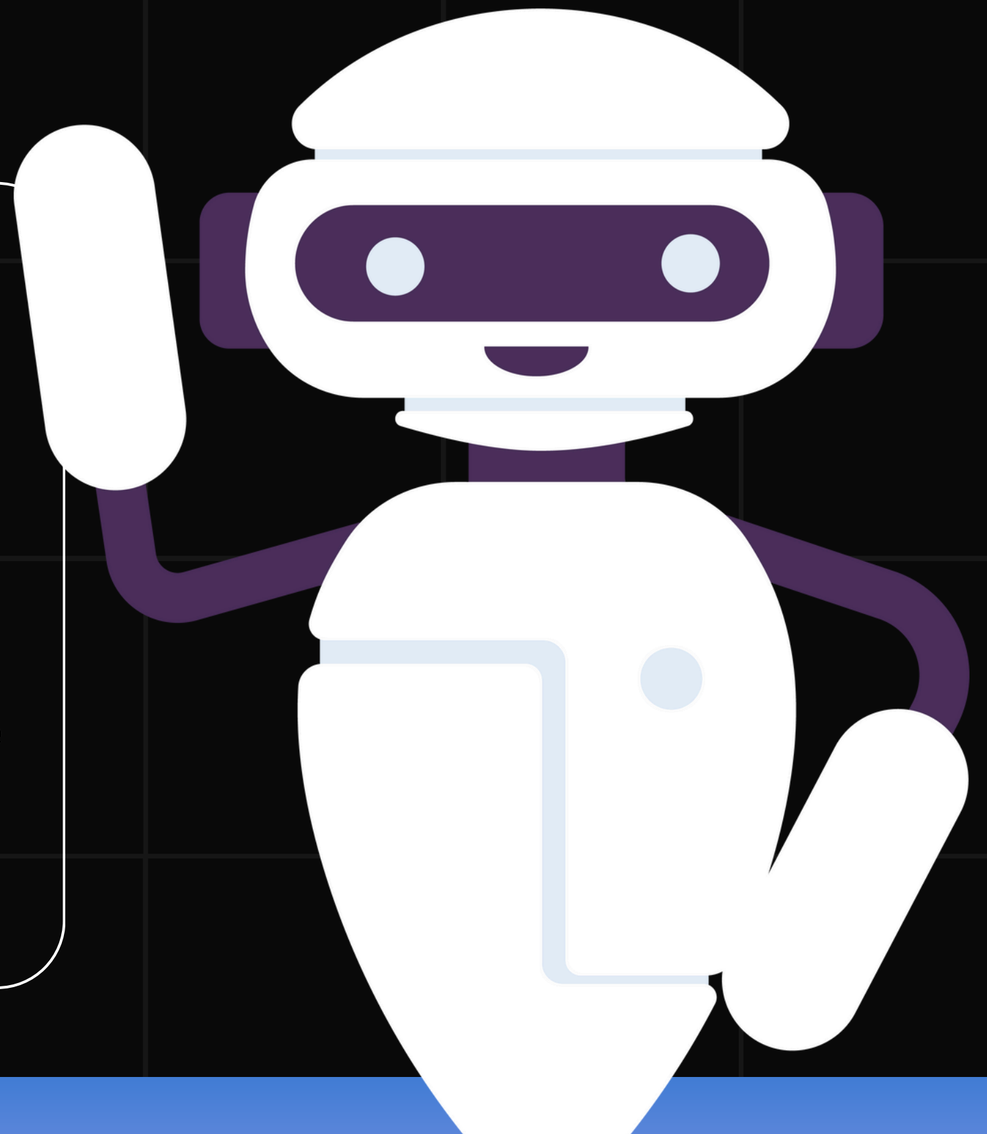
Emotional decisions can lead to poor trading outcomes. Bots follow a set of rules strictly, avoiding fear, greed, or other emotions that might cause humans to make mistakes.

3. SPEED AND EFFICIENCY

Bots can analyze market data and execute trades much faster than humans, making them ideal for high frequency trading or taking advantage of small price movements

4. 24/7 OPERATION

Unlike human traders, bots can trade around the clock. This is especially beneficial in markets that never close, such as cryptocurrency markets.



BENEFITS OF TRADING BOT

Ai probot

BACKTESTING

Many trading bots allow users to backtest their strategies on historical data before using them in real markets. This can help traders optimize their strategies before committing real capital.

CUSTOMIZATION

Traders can create or select bots that match their specific trading strategies, whether it’s arbitrage, trend-following, or marketmaking. This customization allows for greater flexibility.

SCALABILITY

Bots can handle large amounts of data and execute numerous trades simultaneously, making them suitable for traders looking to scale up their operations.

RISK MANAGEMENT

Bots can be programmed to follow strict risk management protocols, such as setting stop-loss orders, adjusting trade size based on risk tolerance, or exiting positions if certain conditions are met.

Ai probot

HOW TRADING BOT WORKS !!

DATA COLLECTION

The bot gathers data from the market, such as price, volume, order book details, and other relevant factors. This data can come from multiple exchanges or markets, depending on the bot's design and purpose.

STRATEGY EXECUTION

Once a signal is generated, the bot decides whether to execute a trade based on its predefined strategy.

SIGNAL GENERATION

Based on the collected data, the bot analyzes market trends using various technical indicators, such as moving averages, Relative Strength Index (RSI), or Bollinger Bands. It identifies potential buy or sell opportunities by analyzing patterns, trends, and key price levels.

RISK MANAGEMEN

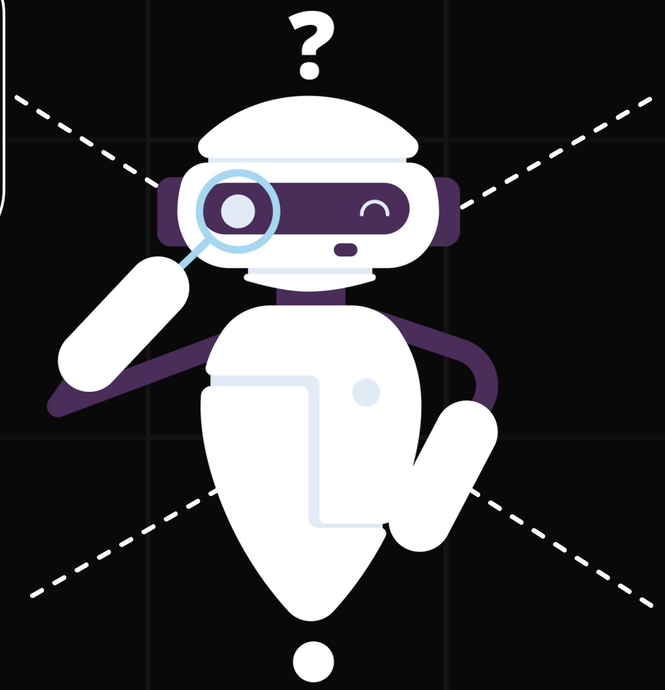
Trading bots often include risk management features, such as setting stop-loss orders to minimize losses or take-profit orders to secure profits at predefined levels. They can also manage trade size and ensuring that the bot doesn’t over-commit to a single trade.

Ai probot

COMPONENTS OF A TRADING BOT

MARKET DATA ANALYSIS MODULE

Analyses and interprets the market data.



SIGNAL GENERATION MODULE

Determines when to buy or sell based on strategy rules.

RISK MANAGEMENT MODULE

Ensure trade follow predefined risk tolerance levels

EXECUTION MODULE

Ensure trade follow predefined risk tolerance levels.

Ai probot

ARBITRAGE BOTS

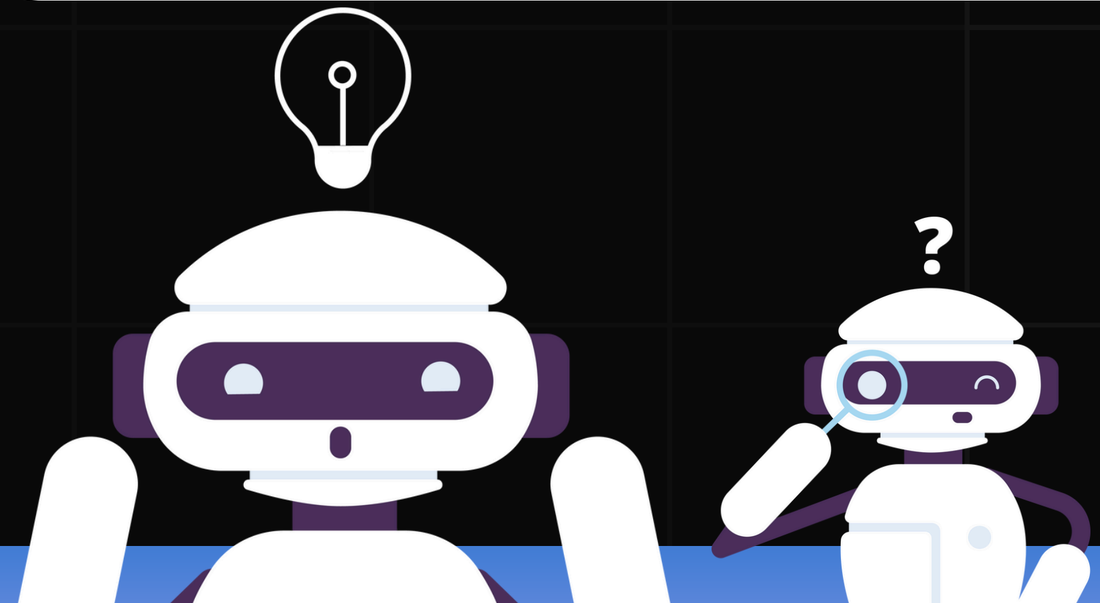
Exploit price differences across exchanges.

MARKET MAKING BOTS

Simultaneously place buy and sell orders to profit from the bid-ask spread.

TREND FOLLOWING BOTS

Follow market trends and trade based on momentum.
MARKET MAKING BOTS Simultaneously place buy and sell orders to profit from the bid-ask spread. A



Ai probot

ADVANTAGES

SPEED

Faster than manual trading. Help you to trade while asleep.

EFFICIENCY

Monitor multiple assets and markets simultaneously.

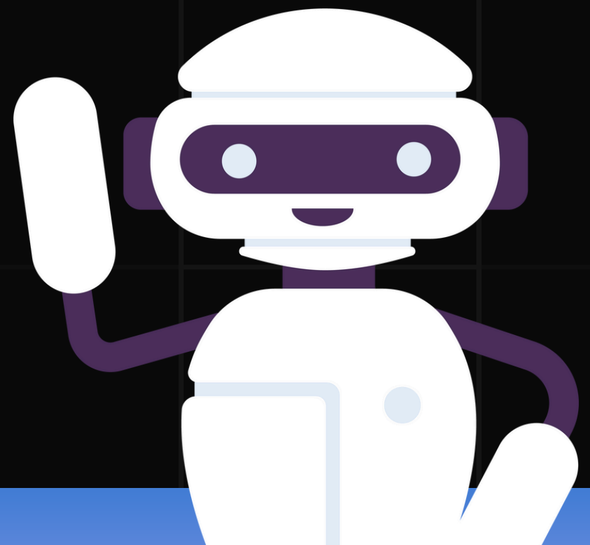
EMOTIONLES

Bots don't make emotional decisions, which can lead to better consistency

Ai probot

MULTIPLE INVESTMENT OPPORTUNITIES

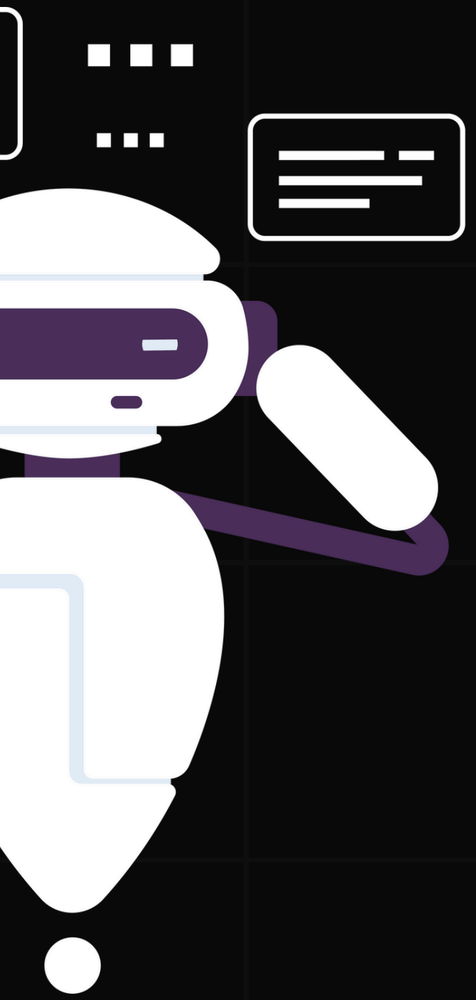
AIPROBOT offers tailored investment opportunities through meticulously structured trading plans that align with users' unique financial aspirations and risk appetites. Within the ever-changing landscape of forex trading, this platform shines by delivering a pioneering and impactful trading environment. AIPROBOT offers various trading packages with different daily return earnings.

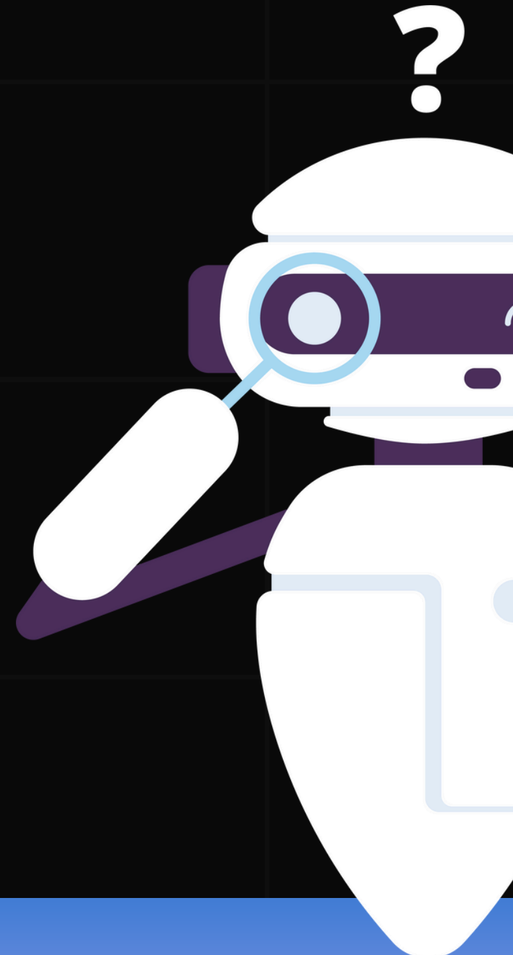


Ai probot

AI TRADING BOT JOINING AMOUNT

$100





Note :

Following a deposit, the user will have access to two plans: Plan A and Plan B.

Here are the specifics of the plan:

Ai probot

PLAN A: BOT REFERRAL INCOME

Users can earn a percentage of income by referring new members to the platform. However, the user need to fulfill certain condition to unlock level and earn income %. The condition and the income percentages are as follows:

LEVEL	INCOME
lEVEL 1	10 %
lEVEL 2	4 %
lEVEL 3	3 %
lEVEL 4	2 %
lEVEL 5	1 %
lEVEL 6 - 25	0.5 %

REFERRAL INCOME CONDITIONS

The user must provide 1 direct referral to unlock each level up to 15 levels.

- 15 direct referrals: unlock all 25 levels.

NOTE:
The bot referral income % will be distributed on bot subscription of 100$.

PLAN A: RANK INCOME

RANK	RANK NAME	PAIR	DOLLARS
1	Star	5	50
2	Bronze	10	100
3	Bronze Plus	25	150
4	Silver	50	250
5	Gold	100	500
6	Platinum	250	1,000
7	Diamond	600	2,500
8	Ruby	1,500	5,000
9	Emerald	4,000	7,000
10	Saphhire	10,000	10,000
11	Topaz	25,000	15,000
12	VIP member	70,000	35,000
13	VVIP member	2,00,000	50,000
14	Club member	5,00,000	1,00,000

NOTE:

1. In Rank Income Only AI Bot Purchased ID Will Be Enter.

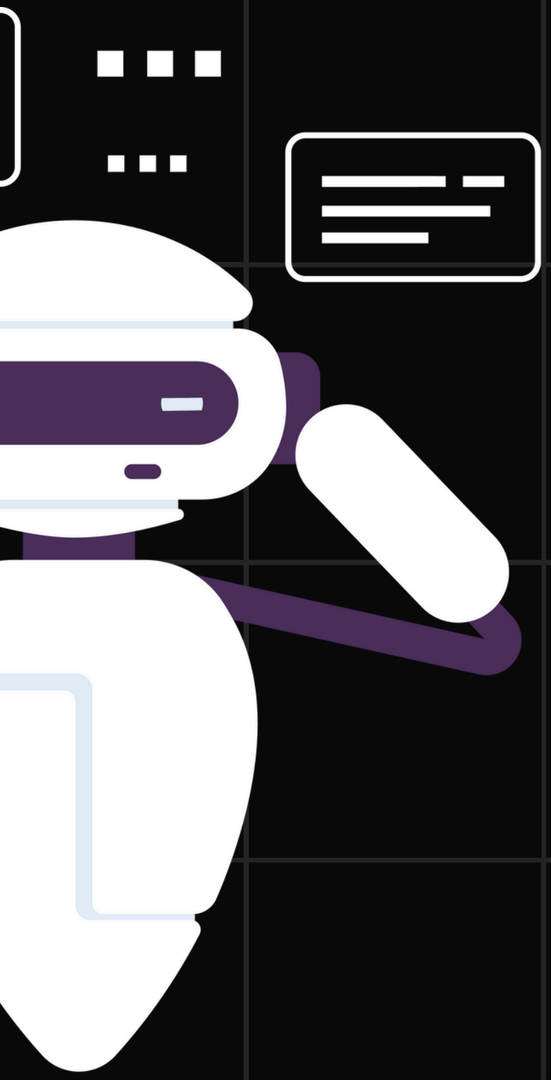
2. Rank achieved bonus will be credited to your wallet every MONTH as you achieved on the same day.

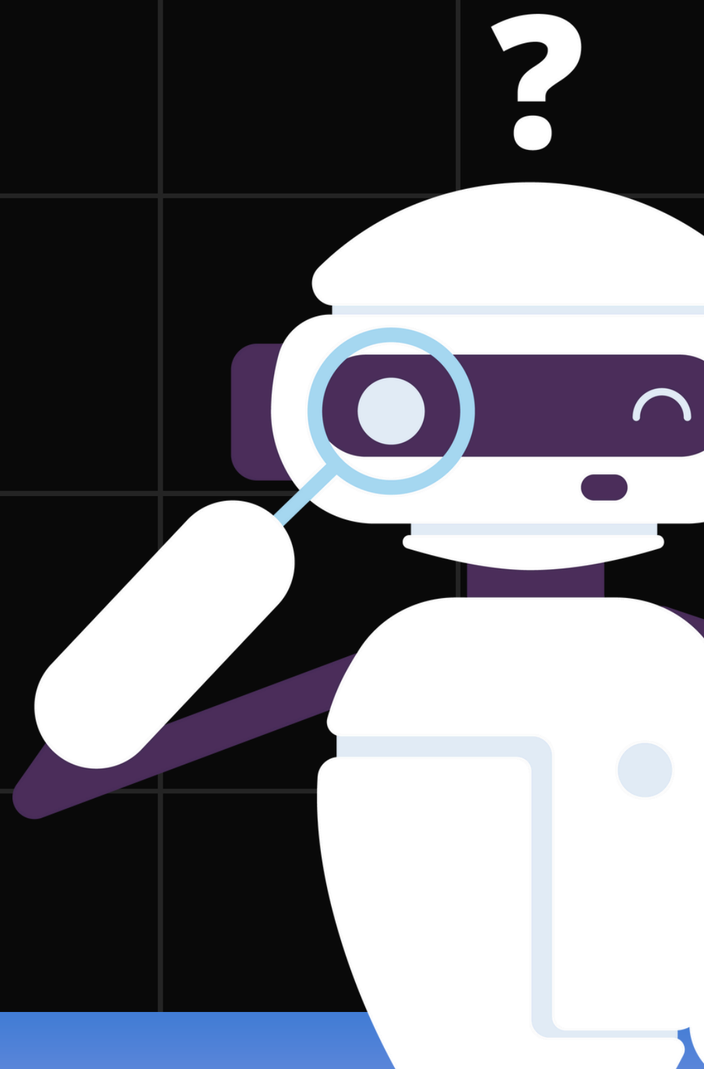
3. Rank income is not include in 2x. Get 0 to 12 months

4. Rank business will be consider 60% of Stronger leg and 40% will be weaker legs.

Ai probot

Plan B





Ai probot

PLAN B: BOT REFERRAL INCOME

Users can earn a percentage of income by referring new members to the platform. However, the user need to fulfill certain condition to unlock level and earn income %. The condition and the income percentages are as follows:

LEVEL	INCOME
lEVEL 1	10 %
lEVEL 2	4 %
lEVEL 3	3 %
lEVEL 4	2 %
lEVEL 5	1.5 %
lEVEL 6 - 15	1 %
lEVEL 16 - 49	0.5 %

REFERRAL INCOME CONDITIONS

The user must provide 1 direct referral to unlock each level up to 15 levels

- 15 direct referrals: unlock all 49 levels.

NOTE:
The bot referral income % will be distributed on bot subscription of 100$.

PLAN B: BOT RANK INCOME DETAILS

Ai probot

The user will be able to get an income upon achieving a certain rank following after fulfilling the criteria. Here are the details of the rank details and reward with the criteria :

Star

CRITERIA: Requires 5 pairs.

REWARD:

4$ (for 50 Weeks)

Bronze

CRITERIA:
Requires 10 pairs.

REWARD:
8$ (for 50 Weeks)

Bronze Plus

CRITERIA:
Requires 25 pairs.

REWARD:

- 16$ (for 50 Weeks)
- Domestic tour LDP Program

Silver

CRITERIA:
Requires 50 pairs.

REWARD:

- 30$ (for 50 Weeks)
- Domestic tour.

Gold

CRITERIA:
Requires 100 pairs.

REWARD:

- 60$ (for 50 Weeks)
- Domestic tour

Platinum

CRITERIA:
Requires 250 pairs.

REWARD:

- 60$ (for 50 Weeks)
- International trip LDP Program

Diamond

CRITERIA:
Requires 600 pairs.
